

In the total ticket platform clients can make promotion codes and freebies for their events.

To create a promotional code for one event or multiple events, go to the organiser menu and click on the promo code link. This will take you to the promo codes page.

Once you have accessed the promo code page, go to the create promo code button and click on it. Clicking on it will give you a window where you can type in exactly what code you want and on what event.
